IndexCreator™ is an IBM® Rational® DOORS® add-on product, part of the Smarter Solutions product line from River North Solutions

IndexCreator™ for DOORS

IndexCreator™ automates producing a requirements index at end of document…displays page number on which requirement resides

IndexCreator Result

- Index of requirements placed at end of document

- Provides sequential list of all requirements in document, indexed to page number of occurrence

- Needed because requirements do not occur sequentially in DOORS modules
